

REMARKS

An advisory action was issued on December 13, 2006 stating that the amendment filed on November 13, 2006 after the final Office Action of July 12, 2006 did not place the application in condition for allowance. In response to the advisory action of December 13, 2006, we offer this supplemental amendment filed herewith.

The Advisory Action noted that “the feature upon which applicant relies (i.e., heat generated at the drive element is conducted to the heatsink to be “dissipated inside the cover”) are not recited in the rejected claim(s).”

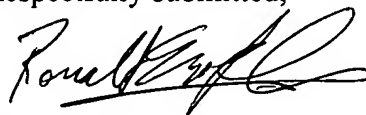

In response, claims 11 and 20 have been amended to recite the feature. The support for this amendment is found in paragraphs 7, 8, and 9 of the specification and also throughout the specification.

Additionally, a new claim 26 has been added. The support for this new claim is found in paragraphs 19 and 32 of the specification and also throughout the specification.

The Examiner is respectfully requested to pass this application to early issue.

A request for a continued examination (RCE) and three month extension of time and appropriate fees are enclosed. Applicants do not believe that any additional fees are due. However, if any fees are due, please charge such sums to our Deposit Account: 50-1145.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Gerald Levy", written over a horizontal line.
